Career Personality Profiler

The Career Personality Profiler is based on the theory of psychological types described by Swiss psychiatrist C.G Jung and Isabel Myers. It assesses four aspects of your personality and is designed to help you learn more about yourself, your preferred work tasks, and your ideal work environment. This report is based solely on your individual preferences and is intended as a general guide to support your career exploration. The information in this report should not be relied upon as the sole basis for career decisions. You should consider other factors such as your personal situation, skills, abilities, job market conditions, and industry trends. It is recommended that you seek professional advice tailored to your circumstances before making career or educational decisions.

The Four Personality Scales

01. Informer - Reflector

Informer – You are focused externally on people, activities and events

Reflector – You are focused internally on thoughts, feelings and reflections

02. Producer - Creator

Producer – You are practical, hands-on and detail-oriented

Creator – You are creative, imaginative and ideas-oriented

03. Analyser - Helper

Analyser – You are analytical, task-focused and enjoy solving problems

Helper– You are empathetic, people-focused and enjoy building relationships

04. Planner - Adapter

Planner – You like to plan, organise and work in a structured environment

Adapter – You like to be adaptable, spontaneous and work in a flexible environment
